RSH CONSULTING

Is it common practice at your installation to create Generic General Resource profiles instead of Discrete profiles to avoid giving users who are permitted ALTER access the ability to administer such profiles?

| Responses	Count	Percent %
Yes	16	55.2%
No	13	44.8%
Total	**29**	**100%**

Do you wish RACF had an option that would prevent users with ALTER access to a Discrete General Resource profile from administering it?

Responses	Count	Percent %
Yes, as SETROPTS option	11	37.9%
Yes, as a profile option	2	6.9%
Yes, as either a SETROPTS or profile option	10	34.5%
No	6	20.7%
Total	**29**	**100%**
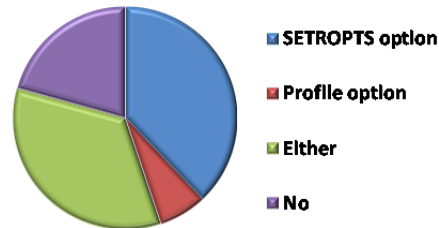

Have any users been permitted ALTER access to any Discrete General Resource profiles on any of your production systems?

Responses	Count	Percent %
Yes	16	55.2%
No	13	44.8%
Total	**29**	**100%**

Was ALTER access permitted with the intent of enabling users to administer any of these profiles?

Responses	Count	Percent %
Yes - DSNR, CICS Transactions	1	6.2%
No	15	93.8%
Total	**16**	**100%**
